

**ANYONE CAN MAKE THEMSELVES SOUND GOOD.
JUDGE US ON OUR PERFORMANCE.**

So you're sitting at the lights and suddenly you hear a sound somewhere between a jet fighter taking off and a medium sized earthquake. The noise gets louder and louder until the source of this unholy racket pulls up next to you: a one-litre Vauxhall Nova with an exhaust the shape of a catering-sized tin of baked beans. Point is, it's not difficult to make yourself sound impressive; but if your bite doesn't match your bark, you end up looking pretty silly. So while we could make a big noise about the benefits of buying stock from GRS, we prefer to let our performance do the talking.
