

YOU'LL FIND OUR CARS RATHER MORE ACCESSIBLE.

We'd be the first to admit that the BMW Isetta is cuter than a basket of sleepy kittens. But have you ever tried getting into one? The front-opening door means lowering yourself – posterior first – into the seat before reaching forward to shut the door in your face. Very graceful. Ordering stock from GRS.co.uk is much easier to negotiate. Not only can you visit our 'virtual showroom' whenever you like, there's even the option to reserve stock on-line. And because every GRS vehicle comes with our money back guarantee you can buy with complete confidence. No wonder more and more people find it easy to get into GRS. For further information visit GRS.co.uk or call us on 01743 281818.
